

## Eragel ZR providing comfort

A soft polyurethane gel suitable for a variety of applications that provides comfort and reduces strain on the body!

Eragel ZR

Suitable applications for **Eragel ZR** include:

- Anti Fatigue Mats
- Cushioning
- Gel Cushions for ladies shoes - Provides cushioning for the balls and heels of your feet
- Gel Filled Bike Seat
- Gel Filled Mouse pads to reduce repetitive strain injury
- Impact Dampening
- Keyboard Wrist Rests
- Motorcycle Seats
- Padding Parts for Medical Devices
- Shoe Inner Soles
- Sports Shoe Soles

**Eragel ZR** is a 2 component system, based on TDI polyether chemistry. Convenient mix ratios mean it can easily be mixed by hand or machine and can be readily processed and cured at room temperature. (The product contains a residual tackiness after cure.)

By changing the ratio of the two components, you can have soft gels ranging from 25 Shore A hardness to as soft as Shore 00, depending on what you need for your particular application!

For more information on **Eragel ZR** please contact Era Polymers on 02 9666 3788 where one of our representatives will be able to assist you.
